

Micro Coaxial Cables - PET Taped Jacket

极细同轴线 – PET包带外皮

Durable ultra-fine micro coaxial cables, which enable extensive bending and twisting, are perfect for using in hinges on portable devices. They provide high speed signal transmission and excellent shielding performance. Micro Coaxial Cables are widely used in small, portable products such as PDAs, notebook computers, LCDs, CCD cameras as well as handheld gaming devices.

极细同轴线是具有极好的抗弯曲性和抗扭曲性的微细电线，特别适合应用于便携式设备的开合铰链部位，提供高速的信号传输和良好的屏蔽功能。极细同轴线被广泛地应用于小型便携式产品上，例如PDA，笔记本电脑，数码摄像机，LCD显示器，CCD录像机以及掌上游戏机。

* SPTCA - Silver plated tin-copper alloy 镀银锡铜合金

** TPTCA - Tin plated tin-copper alloy 镀锡锡铜合金

Product Description

- Impedance : 50Ω
- Silver or tin plated tin-copper alloy conductor
- TEFLON PFA insulation
- Tin plated tin-copper alloy spiral shield
- Lead-free copper and color plated PET taped jacket

Application

Connection between the rotating and twisting areas of PDA, notebook computer, LCD display, CCD camera, handheld gaming device and other high-ended electric appliances

产品说明

- 阻抗：50Ω
- 导体使用绞合镀银或镀锡锡铜合金
- 绝缘使用 PFA
- 镀锡锡铜合金导体斜包屏蔽
- 无铅铜箔及颜色层 PET 包带外皮

应用

应用在PDA、笔记本电脑、数码摄像机、LCD显示器、CCD录像机以、掌上游戏机，及其他高端电子产品旋转及扭弯上之间连接
